

# WORLD WATER DAY

# Cyanide Watch

# Cyanide Freight Train Blockade

**from 4 pm Thursday 22 March 2007  
at level crossing in Runymede Rd, South Kyogle  
(off Bruxner Highway by Kyogle Cemetery)**

**The NSW government is refusing to reveal exactly how much deadly sodium cyanide  
it has approved for the cyanide maker, Orica, to freight from its plant in Gladstone  
through Kyogle and the Richmond valley**

**en route to the far flung gold mines of western NSW, SA, NT and WA.**

**Pacific National carries the toxic cargo and our intention is to stop south bound  
freight trains and asked the drivers direct. How much? How safe? Who benefits?**

**The blockade will take the form of a lantern lit vigil by the line. We will stop the  
freights with distress flares. Bring music and food to share. Info 0407 951 688.**
